#### EXPLICATION OF SYMBOL:

Symbol	Meaning
	Caution
	Manufacturer
	Date and Country of Manufacture
	Consult instructions for use
	Keep away from sunlight
	Medical Device
	Do not use hook
	This side up
	Handle with care

#### DIRECTION FOR USE

- Open the Endothelial Punch packaging and sterilize the device by using appropriate method.
- Unlock the piston by anticlockwise rotation at the knurled knob (B) and pull it out of the stand vertically upwards.
- Hold the piston at (C) with left thumb and forefinger and unscrew the knob (A) by 3-4 turns.
- Place the desired size disposable trephine on the appropriate step at the end (D) of the piston.
- Tighten the knob (A) by clockwise motion till the trephine is held firmly.
- Place the piston back in the cylinder carefully avoiding the trephine edge touching the sides of the cylinder.
- Lock the piston back by clockwise motion of the knob (B).
- Place the corneoscleral button on the Teflon block with endothelial side facing up.
- Place the Teflon block in the central round slot (E) made for it.
- By applying a firm and quick push on the piston with the palm, the corneal button is easily punched out.
- If the corneal button gets stuck in the trephine, remove the trephine from the piston and gently fill the trephine with saline or B.B.S. to push the corneal button out.

#### RETURN OF DAMAGED PRODUCT

Return the product in its original packing identified by the batch number, purchase information, your reference and reason for return. Please contact your local distributor's office regarding product return/exchange.
